

Ways to bring in a photograph from home:

1. Bring in an actual photo from home to scan (do not bring in a print out on regular paper to scan. Make sure the picture is a photograph)
2. Bring in digital camera with camera card
3. Bring in Camera card
4. Bring in Camera and USB connector in order to connect to the computer
5. Bring in pictures on a USB Thumb drive
6. Burn a CD with your pictures on them and bring them in.
7. If you have a high end cell phone with a high mega pixel camera, that is an option. (I would not suggest using a cell phone camera since the overall image will not be as high quality as your digital camera. You don't want a pixilated image.)
8. Come to 252 in the morning prior to the due date to get a picture taken
9. Dropbox.com
10. Email your photo from your school email to your school email. You can email 10MB at a time. (BEST OPTION)
10. If all else fails you can email me the file:
thomas.myers@dallastown.net

I would not suggest using a cell phone camera since the overall image will not be as high quality as your digital camera. You don't want a pixilated image.
