Setting up E-mail on the iPhone

Go to settings:

1. Click on the Mail, Contact, Calendars tab

2. Click on Add Account…

3. Select **Microsoft Exchange**

4. Click on Email and type your Dallastown e-mail

5. Domain - **Dallastown**

6. Click on Username and enter your computer login

7. Click on password and enter your computer password

8. For description you can type whatever you want (this is how the e-mail shows up on your phone)

9. After that click on "next" in the top right corner

10. Server – **mail.dallastown.net**

11. Click on done and your connection should now be established

12. Make sure that "Use SSL" is turned on
