
Domain and Range from Ordered Pairs and Tables

Determine whether each relation is a function, then state the domain and range of each.

1. $\{(-2, 1), (2, 0), (3, 6), (3, -4), (5, 3)\}$ Function? _____

Domain: _____

Range: _____

2. $\{(-3, 2), (-2, 2), (1, 2), (-3, 1), (0, 3)\}$ Function? _____

Domain: _____

Range: _____

3. $\{(-4, 1), (-2, 1), (1, 2), (3, 2), (0, 3)\}$ Function? _____

Domain: _____

Range: _____

4. $\{(3, 3), (-2, -2), (5, 3), (1, -4), (2, 3)\}$ Function? _____

Domain: _____

Range: _____

5. $\{(4, -1), (-1, 4), (1, 4), (3, -4), (-4, 3)\}$ Function? _____

Domain: _____

Range: _____

6. $\{(-1, 0), (-2, 2), (1, -2), (3, 5), (1, 3)\}$ Function? _____

Domain: _____

Range: _____

7.

x	y
-2	3
1	3
-4	2
0	1
2	3

Function? _____

Domain: _____

Range: _____

8.

x	y
2	-3
-1	0
5	5
3	2
2	1

Function? _____

Domain: _____

Range: _____

9.

x	y
-2	3
1	3
-4	2
0	1
2	3

Function? _____

Domain: _____

Range: _____

10.

x	y
4	-1
5	-1
6	-1
7	-1
8	-1

Function? _____

Domain: _____

Range: _____
