Name _____

Unit 2 Objective 2

Section _____

Identify the x-intercept and y-intercept given a graph.

To find the x-intercept from a graph, locate the x axis that runs from the left to the right on the graph. Find where the line intersects this axis. The point will be $(a, 0)$. In the graph below, the x-intercept is $(3, 0)$.

To find the y-intercept from a graph, locate the y-axis that runs from north to south on the graph. Find where the line intersects this axis. The point will be $(0, b)$. In the graph below, the y-intercept is $(0, 6)$.

Find the X and Y-Intercept(s):

1)

2)

3)

4)

5)

6)

7)

8)
