---

*High School Mathematics Department*

Dear Parents and Guardians,

As your child's Algebra I Part A teacher, I would like to inform you of the upcoming unit of study and the objectives we will be covering. For, approximately, the next 2 weeks, we will be studying Writing and Solving Multistep Equations. The following objectives will need to be met with 80% proficiency in order for your child to advance to the enrichment activities within this unit:

- Objective 1 (3.3) – Write equations that represent real-world situations
- Objective 2 (3.3) – Solve two-step equations
- Objective 3 (3.4) – Write multistep equations
- Objective 4 (3.4) – Solve multistep equations
- Objective 5 (3.5) – Use distributive property to solve equations
- Objective 6 (3.5) – Solve real-world problems by using multistep equations

Knowing and understanding the objectives at the beginning of a unit will be an asset to your child's mathematical growth and achievement. Please discuss with your child the importance of mastering these objectives in order to be successful both now and in the future. Thank you for working with me and your child to make this a successful unit.

Sincerely,

Mrs. Joy Reustle

Mathematics Teacher
