Dear Parents and Guardians,

As your child's Algebra I Part A teacher, I would like to inform you of the upcoming unit of study and the objectives we will be covering. For, approximately, the next 2 weeks, we will be studying Functions and Relations. The following objectives will need to be met with 80% proficiency in order for your child to advance to the enrichment activities within this unit:

1. Define relation, function, domain, and range. (5.1)
2. Be able to determine if a relation is a function given ordered pairs, a graph, or a table. (5.1)
3. Be able to identify the domain and range of a relation given ordered pairs or a table. (5.1)
4. Analyze a set of data for the existence of a pattern by completing a table or sequence. (1.1)
5. Be able to express a pattern as an equation given a sequence or table. (1.5)

Knowing and understanding the objectives at the beginning of a unit will be an asset to your child's mathematical growth and achievement. Please discuss with your child the importance of mastering these objectives in order to be successful both now and in the future. Thank you for working with me and your child to make this a successful unit.

Sincerely,

Mrs. Joy Reustle

Mathematics Teacher
