

CSS Assignment

Web Page Design

Mr. Donatelli

Directions:

- From scratch in notepad, you need to create a webpage that looks like the example below. You will use an internal style sheet to style the page and text. You need to have:
 - Page background color (See color section in w3schools for list).
 - H1 should be yellow highlighted and black text
 - H2 should be red highlighted and white text
- Show me when done. Use the CSS tutorial and student example to assist you.
- 10 points based on correctness and completion.

Example:

Header 1: My Plan for Success

- This section needs to be a paragraph on how you plan to be successful after high school (4-5 sentences).

Header 2: My Dreams

- This paragraph needs to be about your dreams (4-5 sentences).
