

Art Major Sketchbook Assignment #11

Perspective Drawing Sketch: This assignment entails creating a 2 point perspective cityscape within an 8" x 10" space. You must use two vanishing points and a horizon line. Try to come up with an interesting composition and point of view. Have fun with it. I realize you don't know much about perspective so give it your best shot. Use the samples below to help you. Use the link below to assist you with the perspective. As soon as you are unsure come and see me. Incorporate things like buildings, mailboxes, light poles etc. This is only a line drawing, no shading. You may make up the environment (fantasy) or use real architecture. I would love to see each of you do something significant to York County.
