

# Art Major Sketchbook Assignment #14

**Contour and Shaded Self Portrait:** Create a 8x10 self-portrait using only contour lines. Then trace that contour and complete a value study. Do not destroy the original contour of your self-portrait for you will be doing sample projects with it. I will show you how to use the Xerox machine to distort and manipulate you're your contour. On the art major moodle, topic 15 under the the self portrait handout sheets, open the first handout to see the proportions for the face to help guide you.
