

Art Major Sketchbook Assignment #5

Shaded Fruit/Veg Drawing: Pick a fruit/vegetable and create a shaded pencil drawing. Be creative in how you represent your object. Take a bite, cut in half, tear it open, show the pit or seeds. This will be a matted piece so take your time and consider the environment. Utilize the full 5" x 5" composition. Do not let the object float. Ground your object. Start off shading lightly and build

your layers of value to develop the rich transitions from light to dark. Remember that a shaded drawing has no physically drawn lines, just edges between the values. (prep drawing for charcoal drawing)
